Board Chairman Message

Dear investors,

I'm grateful to offer additional shares our company is issuing and on behalf of Board of Directors and the company's management, I would like to express my gratitude to all shareholders and investors interested to purchase our shares.

In the capital market of Mongolia, "BDSec" JSC (MSE:BDS) conducts broker, dealer, underwriting and investment advisory services in accordance with special permits issued by the Financial Regulatory Commission. As a company, we have executed 26 to 91 percentage of total trading value on Mongolian Stock Exchange in the last 8 years. In a framework of an underwriting service, we have raised approximately 60% of total capital raised on the capital market and we have been constantly providing investment advisory service in order to improve corporate governance for companies we raised capital for.

We have been pursuing a policy and providing investment and complex financial services to encourage domestic manufacturers and to introduce high potential securities by bringing domestic companies into the capital market. In the future, we have planned to expand our business, provide more quality service to our customers, improve and stabilize our branch operations.

In order to finance the above mentioned plans, it was decided by the Shareholders' Meeting on April 18th, 2014 and the Board of Directors on May 15th, 2014 to raise new equity capital by offering 35.29% of the company to public. In accordance with an article #38 of the "Company Law", the shareholders of BDSec JSC are entitled to execute their preemptive rights to buy from additional shares equal to a proportion of their common stock percentage.

We are confident to strengthen company's investment banking business and profitability upon raising new capital from the security issuance.

LKHAGVADORJ.B

BOARD CHAIRMAN

COMPANY INTRODUCTION

BDSec JSC has been operating since 1991 when privatization took place in Mongolia and capital market was established in the country. The company has 23 years of experience in the market.

In 2006, our company was restructured to Joint Stock Company upon a public issuance of 10,000,000 shares through Mongolian Stock Exchange. In 2008, we issued additional 1,000,000 shares in order to finance working capital of the company to have in total of 11,000,000 shares outstanding.

BDSec JSC became the first full-service securities company upon getting special permissions of Underwriting, Brokerage, Dealer and Investment advisory services from Financial Regulatory Commission in 2007.

Diagram 1. Company's mission

"To position ourselves in the market as a leading and internationally qualified financial organization, to promote industries through investment and comprehensive financial service."

COMPANY'S MISSION

LONG TERM PLAN:

"Develop business operation that matches international standards and create national public companies"

MID TERM PLAN:

"Promote national manufacturers, run business in international markets and increase the number of participants of Mongolian capital market"

SHORT TERM PLAN:

"Develop foreign relations, Encourage securities trading, Develop company's human resource, Provide customers reliable capital market news"

We have been constantly expanding our operation in terms of management and strategic aspects and became a leading company of Mongolian capital market. All these can be shown from our client base, securities trading value, underwriting deals, amount of capital raised, financial strength, stable operation and types of services we provide to our clients.

In a framework of our brokerage service, which is the main operation of the company, we have been pursuing a policy to establish our branch offices in large-scale provincial areas of Mongolia in order to reach out new customers and investors, grant an access to them to trade securities, provide timely news and information regarding capital market and improve citizens' capital market knowledge. So far, we have been operating through 8 branches in 8 provinces and Ulaanbaatar city. We have created the largest brokerage network throughout Mongolia by providing our services to in total of over 170 thousand both local and foreign clients.

Between 2007 and 2013, we solely executed 26 to 91% of total securities trading value on Mongolian Stock Exchange. Our highest market share was 91% in 2012.

Through our underwriting service on Mongolian Stock Exchange, we have also executed 65% of total IPO and FPO financing and 36% of bond issuances by public companies.

As a publicly listed company, we constantly provide our operational and financial reports to shareholders and investors in order to strengthen our compliance with corporate governance and financial transparency. Our company's stock is listed on Board A of Mongolian stock exchange. And we have constantly been one of the largest 20 companies in terms of total market capitalization.

Previous security issuances:

In 2006, "BDSec" JSC (the Security Issuer) became a joint stock company upon issuing 10,000,000 (ten million) shares at 100 MNT per share, of which 75% is offered to the public through Mongolian Stock Exchange. Later in August, 2008, the company issued 1,000,000 (one million) additional shares at 100 MNT per share. The shareholders were offered to execute their preemptive rights equal to their ownership proportions. Upon raising additional capital, company's total shares outstanding reached to 11,000,000 (eleven million) shares.

Company's shares are trade on Board A of Mongolian Stock Exchange with a ticker/code of BDS/522. The stock has been one of the most actively traded stocks on the exchange. Also, the company is one of the top 20 companies in terms of market capitalization and is included in TOP 20 index.

OPERATION OF THE ISSUER

With our mission "To position ourselves in the market as a leading and internationally qualified financial organization, to promote industries through investment and comprehensive financial service", we have been operating since 1991.

Our company's main operations are Brokerage - to intermediate securities trading for both local and domestic investors, and Underwriting - to raise capital necessary for companies from the market through securities issuance.

We also provide Investment advisory service in order to assist companies to be listed on stock exchange, strengthen corporate governance, raise capital for a profitable projects and help citizens to trade securities.

The team of BDSec JSC of managers, advisors and specialists is comprised of people who are highly qualified and specialized in both local and foreign capital markets. Thus, we have been offering high qualify services to our customers and all the operations of our company comply with Mongolian laws and regulative bodies' regulations. All the operational aspects and market position of "BDSec" JSC have always been better compared to similar companies.

Thus, well known domestic companies, commercial banks, foreign investment funds and world-standard banks choose our company for their businesses.

Brokerage

We have been providing timely service to our customers and investors to enable them to buy securities from the market and we always strive to better our services for our customers.

For example, we have increased the number of our branches throughout Mongolia to 9 and introduced Tel-E brokerage service for local clients and enable a trading hall for them.

We also provide timely and relevant stock market news, information, research and other recommendations and advices to our customers and public in compliance with relevant laws and regulations.

Tel-E brokerage service

Through our Tel-E service, our clients can participate to stock trading on the stock exchange using phone, fax and email regardless of their locations.

We introduced this service in 2008 for the first time in the capital market of Mongolia. This service closely

matches with our customers' needs and became one of the improvements for the participants on the stock exchange.

Trading hall

We have created a comfortable space for our investors and customers to enable them to directly participate to the stock trading. One third of our active customers participate to the stock trading through our trading hall.

We have introduced a trading hall in our headquarter and a branch office in Ulaanbaatar city. In the future,

we plan to introduce trading halls to our branches in provincial areas.

Training and Advice

Local participants of the stock exchange have become active in the last years. Also, because of the share distribution of Erdenes Tavan Tolgoi, the largest untapped coking coal mine in the world, both local and foreign investors are getting more interested to the market.

As knowledge base of local participants regarding the stock market is low, our company has been

conducting training and advisory programs to improve their knowledge.

Since 2008, we have started our elementary level training program of capital market and since that time, in total of over 5000 citizens were covered by this program. Also, we by ourselves and along with Financial Regulatory Commission, Mongolian Stock Exchange and Mongolian Association of Securities Dealers, have organized number of events for local enterprises in large provinces of Mongolia.

News and Research

We provide daily, weekly trading news and information to our customers. We also publish research notes on the market, public companies and economy in both electronic and hard copy forms.

Services for professional investors:

Research and analysis

For our both local and foreign professional investors, we publish international standard indetail research notes regarding Mongolian economy, capital market and public companies.

We have adapted theoretical research methodologies to the situation of Mongolian market and we make comparisons with companies in other developing markets to give our recommendations and conclusions for the investors. Since 2012, our research team has been led by Nick Cousyn, who has over 18 years of work experience in a capital market of the US.

Investor conference

We also regularly organize meetings with public companies, government and state entities for our local and foreign investors and anyone who is interested to invest in Mongolia.

Block trade

We organize block trades between large-scale investors who would like to purchase significant part of the company and the company shareholders or we help large shareholders to look for a buyer to dispose their shares.

Back Office

In accordance with a cooperation agreement between Mongolian Stock Exchange and London Stock Exchange, a new trading system called Millennium IT (MIT) was introduced to the stock exchange in July, 2012. As a result, trading settlements started to be handled by commercial banks. Because of this development, brokerage companies had to adapt their operations to this new system.

In 2012, BDSec JSC established a new department - Back Office in order to execute clearing and T+3 settlement, conduct settlement registration and monitoring. Clients' order execution and trading procedures comply with market requirements and relevant laws and regulations.

Brokerage service indicators

The role and position of BDSec JSC on the stock exchange shows our operational scope and market position.

In the last 7 years, we solely executed between 27% and 91% of the total trading on the stock exchange, which implies we are one of the leading brokerage companies in the market.

90.9% 800.0 100.0 65.9% 64.4% 80.0 600.0 57.7% 50.2% 46.0% 60.0 400.0 26.8% 40.0 200.0 20.0 2007 2008 2009 2010 2011 2012 2013 Total trading value BDSec trading volume Trading market share

Stock trading

In total of 197.2 billion MNT worth of stock traded on Mongolian Stock Exchange as of 2013 of which 52.9 billion MNT or 26.9% was executed by BDSec.

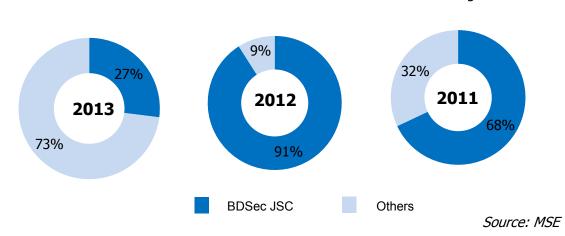

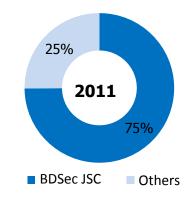

Chart 4. Stock trading market share

Corporate bond trading

In 2011, BDSec JSC executed 6.6 billion MNT worth of bond trading, which is 75% of total bond trading on the Stock exchange.

According to the "Company Law" amended in October 2011, limited liability companies are prohibited from issuing bonds to the public on the stock exchange. This resolution limited a development of the stock exchange and basically stopped the bond issuance on the primary market.

In 2011, Just Agro LLC issued "Mongol Meat" Bond (MMB) to public and successfully raised 4.4 billion MNT. Because of the new regulation, Just Agro LLC became the last company raised bond financing on the stock

exchange.

Government bond trading

BDSec JSC is one of the active participants of the Government bond trading. The company executed 58% or 17.5 billion MNT worth of government bond trading in 2010 and 33% in 2011.

In a cooperative resolution approved by the Ministry of Finance and the President of Bank of Mongolia on October 25th, 2012, primary market trading of government bonds started being traded through Bank of Mongolia and as a result, primary market government bond can't be traded on Mongolian Stock Exchange.

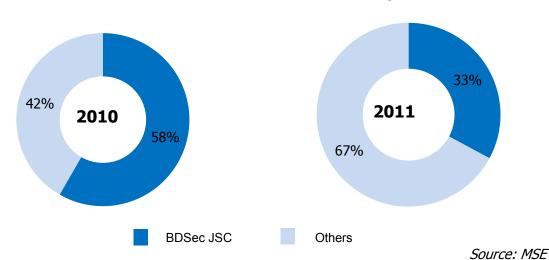

Chart 5. Government bond trading between 2010 and 2011

Client base

Number of clients, who can participate to a stock trading, of BDSec JSC reached 170,545 as of 2013, which is 22.7% of the total participants of the stock market.

There are in total of 766,961 citizens who have securities account, which accounts 26.7% of total Mongolian population.

There are in total of 2,551 corporate accounts registered at the "SCHCD" of which 581 corporate accounts are clients of BDSec JSC.

Brokerage network

In order to establish widespread network and deliver quality services, BDSec JSC opened its branch offices in Tuv, Khuvsgul, Orkhon, Darkhan-Uul, Arkhangai, Bulgan, Dornogobi, Selenge provinces in order to reach out clients in provincial areas.

Picture 1. Branch locations of the Issuer

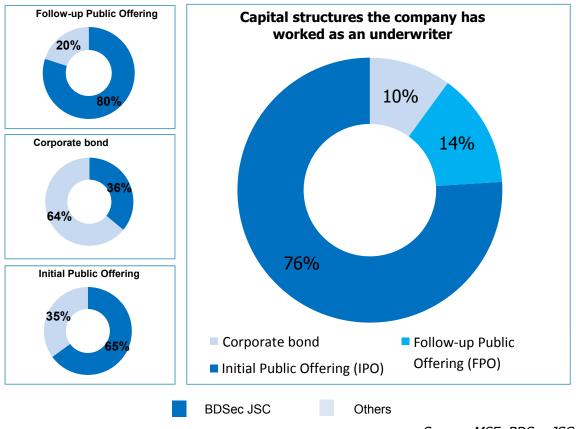

Underwriting

BDSec JSC strives by all means to support and encourage national manufacturers and companies that can contribute to economic and manufacturing development of the country. We have gained significant experience by working as an underwriter on both bond and equity financing.

As of 2013, in total of 18 companies raised capital through Initial Public Offering (IPO), of which 65% or 51.4 billion MNT worth of deal was underwrote by BDSec JSC.

We have also worked as an underwriter on 80% of the total follow-up public offering deals to raise in total of 9.45 billion MNT worth of capital. In terms of corporate bonds, we have underwrote 6.4 billion MNT worth of deals.

Investment advisory

"BDSec" JSC was granted an investment advisory special permits by Financial Regulatory Commission in 2007. Within a framework of this permission, we provide professional advisory service to securities issuers. Starting from 2009, we expanded our Investment advisory service to individuals interested in investment.

Within this scope, based on public information of listed companies, we publish research notes and give independent advice and recommendations to buy and sell securities to our clients.

For example, we created a list of "30 standard companies" from MSE listed companies based on their transparency and profitability indicators. And we publish fundamental research notes based on this companies to inform our customers.

Starting from 2013, we have established a corporate advisory branch in order to promote transparency and compliance with obligations taken for shareholders. As a result, public companies have an access to services to organize Annual Shareholders' Meeting with high professionalism.

Picture 2. Introduced investment advisory service to the market

Source: MSE, BDSec JSC

As of today, our Investment advisory branch has made investment service agreements with in total of 18 companies. We also organize arrangements for MSE listed companies with low stock liquidity to restructure into closed companies.

Financial analysis

Table 11. Balance sheet analysis between 2011 and 2013

Indicators	2013	2012	2011	Average
Cash and cash equivalents	8.80%	6.78%	0.90%	5.49%
Short term investment	42.01%	45.00%	53.98%	47.00%
Receivables	13.24%	9.62%	2.70%	8.52%
Amount of current assets	64.05%	61.40%	57.58%	61.01%
Fixed asset	34.84%	37.54%	37.18%	36.52%
Investment and other assets	1.11%	1.06%	5.24%	2.47%
Amount of non-current asset	35.95%	38.60%	42.42%	38.99%
Total asset, by percentage	100%	100%	100%	100%
Amount of short term debt	8.07%	2.25%	10.35%	6.89%
Amount of long term debt	0.46%	0.64%	1.42%	0.84%
Amount of total debt	8.53%	2.88%	11.77%	7.73%
Share capital	11.28%	11.28%	11.20%	11.25%
Additional paid in capital	28.98%	28.98%	28.76%	28.90%
Shareholders' equity	17.45%	19.05%	25.98%	20.83%
Accumulated profit	33.76%	37.80%	22.30%	31.29%
Amount of shareholders' equity	91.47%	97.12%	88.23%	92.27%
TOTAL AMOUNT OF DEBT AND EQUITY	100%	100%	100%	100%

Analyzing the capital structure, amount of current asset accounts more than 60% of the total asset which is because of the Issuer's operational uniqueness. Regarding the current asset breakdown, short term investment accounts most of the current asset which is the short term asset owned by the Issuer under its dealer's (investment) operation. Accounts receivable is generally stable and most of the receivables are classified as normal. Liquid asset accounts most part of the total asset.

As per non-current asset which accounts 36% of the total asset, most of the non-current asset is company's office building and its fixed assets.

91% of the Issuer's source of the financing is from internal financing. In 2013, amount of debt increased sharply from 2.8% to 8.5% of the total liability. This is because of unpaid dividend of 60 MNT per share in 2012, which was classified as dividend payable in the financial statement of 2013. Debt payable ratio using company's own resource is strong in short, medium and long period.

Table 12. Income statement of structure analysis between 2011 and 2013

Indicators	2013	2012	2011	Average
Amount of sales revenue	100%	100%	100%	100%
Cost of Goods Sold	24.73%	18.41%	16.10%	19.75%
Gross profit	75.27%	81.59%	83.90%	80.25%
Operational expense	61.94%	52.32%	52.43%	55.57%
Operational profit	13.33%	29.27%	31.46%	24.69%
Non-operational profit (loss)	-1.04%	-1.23%	-0.47%	-0.91%
Profit before tax	12.28%	28.04%	31.00%	23.77%
Income tax	1.33%	2.93%	3.17%	2.48%
Profit after tax	10.95%	25.11%	27.83%	21.30%

Through the analysis of an income statement of the Issuer, the following points can be made:

Approximately 25% of the total sales revenue comes from dealer's operation and securities bought through an underwriting operation.

Operational profit accounted around 30% of the total sales revenue between 2011 and 2012 whilst it declined to 13% in 2013. Of the operational expense, salary expense accounts 34%, commission expense which is unique to the company's operation accounts 22% and depreciation expense accounts 17%. Profit before tax accounts 12% and net profit accounts 11% of the sales. Financial indicators of 2013 have been lower than that of previous periods due to economic and market slowdowns.

Table 13. Financial statement comparison analysis between 2011 and 2013

	2013	2012	2011	Average

EV/EBITDA	43.63	20.80	22.97	29.13

Financial position analysis of the Issuer:

- Between 2010 and 2012, the company's sales revenue had an average growth of 52%, however, in 2013, due to market slowdown, sales revenue decreased by 58% compared to the previous year.
- Company's gross profit is 75%, net profit is 11% and operational profit is 13% of the sales revenue.
- Debt and equity ratio of the last 3 years has been on average of 8% which implies high solvency ratio.
- As the capital market has been in recession in the last two years, the Issuer's profitability ratios have also been negatively affected by it.

Mongolian economy

Between 2011 and 2013, Mongolian economy was growing in double digits which drew lots of attention of foreign investors.

In 2013, the country's GDP grew by 11.7% of which 5.1% was from manufacturing sector, 4.3% was from service sector and the remaining 2.0% was from agricultural sector. Construction sector had the highest growth rate of 66.5% whilst wholesale, transportation and warehouse services had the lowest growth rate of 1.6%. In 2013, nominal GDP grew by 25.2% to reach 17,550.2 billion MNT. Mining sector increased by 20.7% in 2013 which was because of the commencement of Oyu Tolgoi mine in July 2013.

From the last year, because of "Price of main goods and services stabilization program", continued project financing by Chinggis bond, stable monetary and loan indicators, increased growth of agricultural products and export commencing of Oyu Tolgoi mine positively affected economic indicators in the 2nd half.

Chart 8. GDP real growth, by sectors

Source: NSO

Economic indicators

State budget

Amount of total budget income and aid reached 5,927.5 billion MNT which is 19.5% or 969.8 billion MNT higher than this period of the previous year. Of which, tax income accounts 85.3%, non-tax income accounts 13.9% and remaining 0.8% is accounted by asset income and stabilization fund.

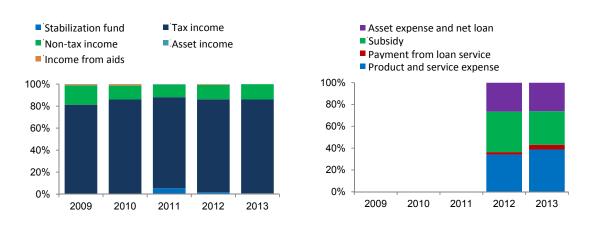

Chart 9. Amount of total budget income and aid

Source: NSO

Amount of total budget expense and net loan value increased by 155.2 billion MNT compared to the same period of the last year to reach 4,559.3 billion MNT. Of which, 38.7% accounts goods and service expense, 30.68% accounts subsidy and transaction and 4.38% accounts loan service payment.

Investment

In 2013, in total of 6,285 million MNT worth of investment was made which is 3,110.2 million MNT lower than the previous year. Foreign direct investment accounts 55.7% of the total investment.

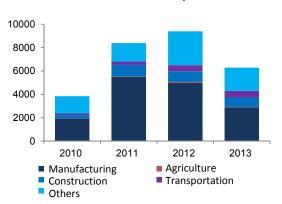

Chart 10. Investment by sectors

Table 15. Investment by sectors

Investment, by sectors	2010	2011	2012	2013
Manufacturing	1936.9	5494.6	5005.2	2893.4
Agriculture	23.3	38	64.6	31.8
Construction	262.8	990.7	913.8	807.4

NSO

Manufacturing sector accounts 46%, construction sector 13%, transportation sector 9%, and agricultural sector 1% of the total investment. Other sectors account the remaining 32%.

Foreign exchange reserve, currency fluctuation

In 2013, local currency depreciated 19.9% against USD and 23.08% against RMB, which are the main currencies of foreign trade and investment.

Chart 11. Exchange rate fluctuation and foreign exchange reserve

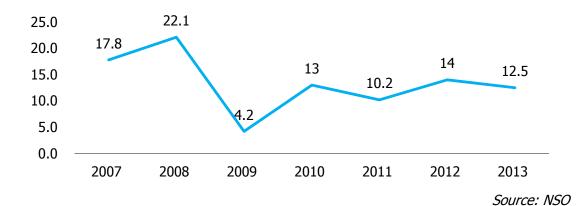

Source: NSO, Bank of Mongolia

Inflation

Inflation rate of 2013 was 12.5%. Price indexes of education, clothes and cotton, household utensils, hotel and restaurant increased, whilst that of water, electricity, fuel, transportation and postal service decreased. Foreign currency appreciation was the main factor of increased price indexes.

Chart 12. Rate of inflation

Breakdown of a rate of inflation in Ulaanbaatar city is as follows: 9.3% is meat, 13.8% is other food products, 15.4% is stated-controlled product and services, 1.4% is fuel and the remaining 61.1% accounts other product and services.

Household income

Household income of Mongolia has been increasing year over year and it increased by 17% in 2013 to reach a monthly amount of 959.0 MNT. There are in total of 1,125.4 thousand working-age citizens in Mongolia.

1,200.0 1,200,000.0 1,000.0 1,000,000.0 820 959 0.008 0.000,008 574 600,000.0 600.0 448 403 364 400,000.0 264 400.0 200,000.0 200.0 0.0 2007 2008 2009 2010 2011 2013 2012 Employees (thousand) Unemployment (thousand) Monthly household income

Chart 13. Household income and number of employees

Source: NSO

Number of registered unemployed citizens reached 42.8 thousand as of December 2013 which increased by 7.0 thousand or 19.6% compared to the last year.

Foreign trade, commodity market

In 2013, Mongolia traded with 135 countries of the world and foreign trade turnover reached 10,627.4 million USD of which 4,272.7 million USD accounts exports and 6,354.7 million USD accounts imports.

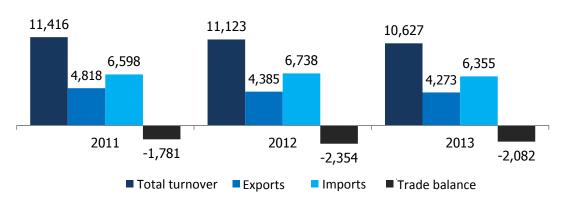

Chart 14. Total foreign trade turnover, million USD

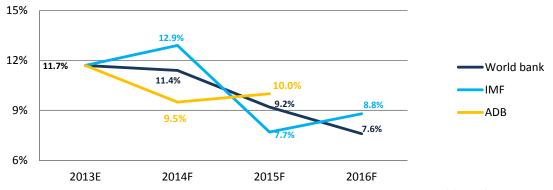

Source: NSO

Compared to the last year, total foreign trade turnover reduced by 495.7 million USD or 4.5%, exports went down by 112.0 million USD or 2.6% and imports declined 383.7 million USD or 5.7% in 2013.

Minerals, knitwear, jewels, metals, accessory, coins, raw and semi-manufactured skin, animal skin and its derivatives account 96.5% of the total exports amount.

Economic prospect

Chart 15. Mongolian GDP growth, by percentage

Source: World Bank, IMF, ADB

The above chart illustrates Mongolian GDP growth prospect estimated by international financial organizations. As inferred by the chart, Mongolian economic growth is expected to be stable in foreseeable future.

BUSINESS PLAN

In order to finance working capital, "BDSec" JSC is raising capital by issuing 6,000,000 (six million) additional common shares on Mongolian Stock Exchange.

We obtained our first special permission of an underwriting from Financial Regulatory Commission in 2006. And since that time, the company has been conducting its underwriting service for the 8th year. Within this period, we worked as an underwriter for 11 IPOs and 4 FPO deals in the capital market on which we made Stand by commitment by buying unsold shares from the market. As per other deals, we have successfully offered the deals to the public and raised capital based on Best Effort commitment.

We think in the coming 3 years, it is necessary to introduce new financial products that attract investors' interest and promote a supply of securities which would increase our company's profitability and bring positive effects to the local capital market and the country's economic situation.

Changes and improvements of the capital market

Even though it has already been 23 years since the establishment of Mongolian capital market, there are very few types of financials products in the market. In the past, in total of 18 initial public offerings (IPO), 4 follow-up public offerings (FPO) and 5 corporate bonds were introduced to the market, yet these deals still couldn't satisfy the market demand. Lack of financial products in the market results low market liquidity and limits investors' participation.

The main reason of lack of financial products is a high requirement to issue shares as well as the fact that a listing procedure takes huge amount of work.

In order to solve problems of the capital market and renew legal environment, the "Securities Market Law" was amended by the Parliament in 2013 with certain changes which resulted regulations of sector participants and trading organizations to be adapted.

Very small percentage of foreign direct investment into Mongolia comes through capital market due to the above mentioned reasons. Thus, by amending the laws and regulations, security issuers would have more flexible options to raise capital through capital market. Along with the improvements brought by an amended "Securities Market Law", local companies regardless of their business scales are enabled to raise capital through variety forms of financing. And at the same time, capital raising procedures have become simple and unambiguous.

One of the improvements of an amended law is double listing regulation. In the framework of this regulation, foreign listed Mongolian assets are enabled to be listed on Mongolian Stock Exchange and domestically listed large-scale companies now can be listed abroad, on foreign stock exchange.

Compared to the financial market, the capital market can be competitive to raise capital in significantly short period of time. Market regulators have been more flexible on the regulation,

which enables companies to raise capital in relatively short period of time through Mongolian Stock Exchange.

Considering these, it can be said that the process to raise capital has been much simplified and clear for the Issuers which would further enable market development.

Underwriting service contribution of BDSec JSC to the capital market

As of December 31st, 2013, BDSec JSC traded 97.6 billion MNT worth of 65.8 million shares of 134 companies through 254 trading sessions and 1.0 billion MNT worth of 10.0 thousand government bonds. The company traded in total of 98.6 billion MNT worth of securities on the stock exchange.

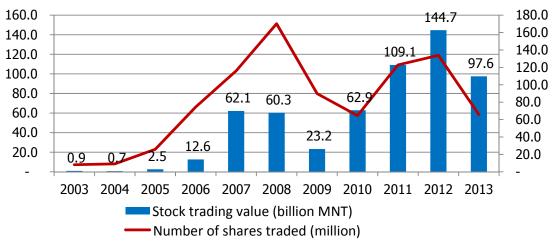

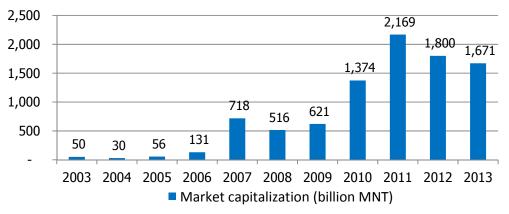

Chart 16. Amount of equity trading, volume

Source: MSE

Total trading volume reduced by 47. 1 billion MNT or 32.57 percent in 2013 compared to the previous year.

Equity financing stated in an underwriting operation plan will be traded through securities trading on Mongolian stock exchange. By doing this, total equity trading volume in the coming 3 years can increase by 418 billion MNT.

Chart 17. Total market capitalization

Source: MSE

Total market capitalization of Mongolian stock exchange was 1,671 billion MNT as of 2013 which is 7.1% lower compared to the previous year. In the framework of our underwriting operation plan, we planned to raise in total of 418 billion MNT worth of capital in the coming 3 years, which would be 25 to 30% of the total companies' value we are working as an underwriter. By raising this capital, total market capitalization of listed companies can be increased by 1,394 billion MNT.

Research on competitors

As of today, there are 28 companies which took underwriting operation licenses from Financial Regulatory Commission. Of which, 18% of these companies worked as an underwriter on IPO deals and remaining companies haven't introduced any IPO deals yet.

INFORMATION ON OPERATIONS TO BE FINANCED BY ADDITIONAL SHARE ISSUANCE

Use of proceeds

According to the company's mid term plan, the company is raising new capital through additional share issuance in accordance with a resolution #3 of Annual shareholders' meeting as of April 18th, 2014 and a resolution #6 of Board of Directors as of May 15th, 2014. The proceeds from an additional 6,000,000 shares will be used in accordance with the company's mid term plan.

Preemptive rights will be exercised first on additional 6,000,000 shares and remaining unsold shares will be offered to the public on the primary market.

Preemptive offer price is set at 1,931 MNT /one thousand nine hundred thirty one tugrigs/, a 10% discounted price from the market price of 2,146 MNT. The price of the remaining shares to be offered to the public will be decided by fixed price method. An offering price to the public will be set by Board of Directors. The price, which will be based on the market price, shall not be lower than the preemptive offer price.

Amount of capital raising through additional share issuance is shown below.

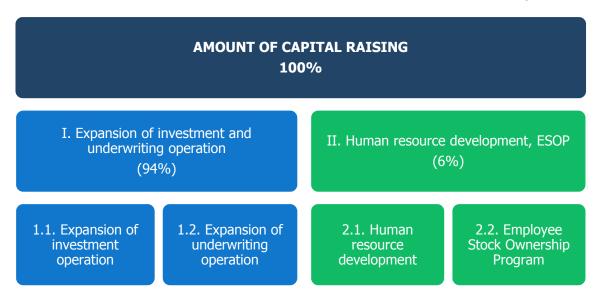

Table 22. Amount of capital to raise

OFFER PRICE:	
Price of preemptive rights:	1,931 MNT
Price of public offering:	To be decided by the Board based on market price
AMOUNT OF CAPITAL TO RAISE:	
Total amount at rights offering price:	11,586,000,000 MNT
Total amount at market price:	12,876,000,000 MNT

Most of the capital raised through an additional share issuance will be used for investment and underwriting operation, which would be 94% of the total capital raising. The remaining 6% will be used for human resource development and Employee Stock Ownership Plan (ESOP).

		Amo	Amount				
	Expenditure	At a price of preemptive rights	At market price	Perce ntage			
1	Expansion of investment and underwriting operation	10,890,840,000	12,103,440,000	94%			
2	Human resource development and Employee Stock Ownership Plan (ESOP)	695,160,000	772,560,000	6%

Chart 18. Use of proceeds

I. USE OF PROCEEDS: EXPANSION OF INVESTMENT AND UNDERWRITING OPERATION

The positive outlook of Mongolian economy and the capital market has become one of the factors to expand our investment and underwriting operation of the company

Mongolia GDP growth has been in double digits in recent years, it was 17.3% in 2011, 12.3% in 2012 and 11.7% in 2013. Of which, 5.1% accounts private enterprises and construction sector, 4.3% accounts service sector and 2% accounts agriculture.

In 2012, the government of Mongolia raised 1.5 billion USD worth of capital through an issuance of Chinggis bond on international market, which has been invested in large-scale railway, road, and electricity and power projects.

In the framework of implementing the objectives set to develop manufacturing sector between 2012 and 2016 by the government, the period has been announced to be the "new era of manufacturing". Supporting this objectives, the government announced to make an investment in mining, construction, agriculture and manufacturing to substitute imports and encourage exports.

In 2013, general plan to develop Ulaanbaatar city until 2020 and development direction until 2030 was approved by the parliament. In the framework of this plan, re-planning has taken place in some districts of Ulaanbaatar city and construction and road projects for provincial areas have started. In the framework of this plan, number of projects have been planned, such as thermal power stations, expansion of the current power stations, road, highway and metro construction, apartment projects in ger districts and satellite cities.

The government plans to have large scale railway, road and manufacturing facility projects implemented by joint ventures of state and private enterprises.

World scale projects such as Oyu Tolgoi and Tavan Tolgoi are being implemented in Mongolia and side businesses following these projects are developing.

Large scale infrastructure projects of railway, paved road, power stations, airport and manufacturing complex have planned to be implemented in the coming 5 years. These projects would cost in total of 30 to 50 million USD.

Developments of capital market legal environment have enabled new opportunities to the market and both local and foreign investors, security issuers have been paying attention to these developments. For example, Amended Securities market law, Company law, Investment law and Investment fund law can be mentioned.

Also Mongolia is the lowest tax rate country in the region with corporate tax rate of 2 scales - 10% and 25%.

In the framework of company's mid term business plan, 94% of the capital raised through an additional share issuance will be used for underwriting and investment operation expansion, which would be between 10.8 billion MNT and 12.1 billion MNT.

1.1. <u>INVESTMENT AND PROPRIETARY TRADING EXPANSION</u>

The following directions will be pursued for investment and proprietary trading expansion. In which:

DIRECTION-1: Invest in shares of publicly traded companies,

DIRECTION-2: Invest in construction, mining, finance and manufacturing sector

companies through private investment,

DIRECTION OF INVESTMENT AND PROPRIETARY TRADING EXPANSION-1:

Invest in shares of publicly traded companies

An average short term investment return of "BDSec" JSC between 2007 and 2013 /excluding 2009/ has been 25%. Negative return from dealer and proprietary trading in 2009 was due to economic and financial recession. Thus, an expected return from this operation in the coming 5 years would be not less than 20% based on current economic and capital market prospects.

As of May 1st, 2014, there are in total of 181 companies are listed on Mongolian Stock Exchange of which 19.9% is Board A companies and remaining 80.1% is Board B companies.

Listed companies in terms of sectors are shown below as of 2013:

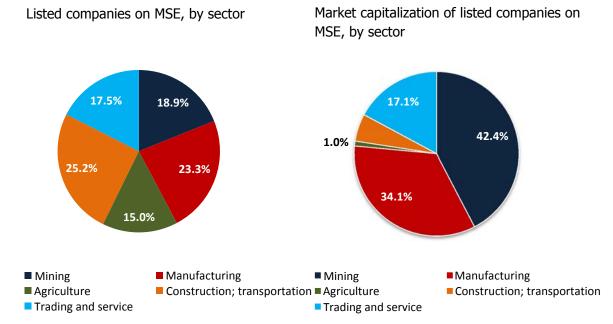

Table 24. Publicly listed companies, by sector

Sectors	Publicly listed co	Total	Percen	
Sectors	Board A	Board B	TOtal	tage
Mining /A/	8	31	39	18.9%
Manufacturing /B/	14	34	48	23.3%
Agriculture /C/	0	31	31	15.0%
Construction,	5	47	52	25.2%

Trading and service /E/	8	28	36	17.5%
Total	35	171	206	100%

Source: MSE

As of May 7th, 2014, total market capitalization of all publicly listed companies on the stock exchange was 1,528.5 billion MNT. Number of mining companies accounts 18.9% of the all publicly listed companies, yet the total market capitalization of these mining companies account 42.5% of the total market capitalization. In terms of market capitalization, manufacturing companies account 34.1%, trading and service companies account 17.1% and construction and transportation service companies account 5.4%. As per an agricultural sector, number of agricultural companies accounts only 15%, however in terms of market capitalizations, the sector accounts only 1.0% of the total.

Chart 19. List of publicly traded companies, by sector

Source: MSE, BDSec JSC

Using the proceeds, the Issuer plans to specifically invest in construction and mining sector of the country and invest in companies operating in this sectors.

DIRECTION OF INVESTMENT AND PROPRIETARY TRADING EXPANSION-2:

Make an investment through private placement

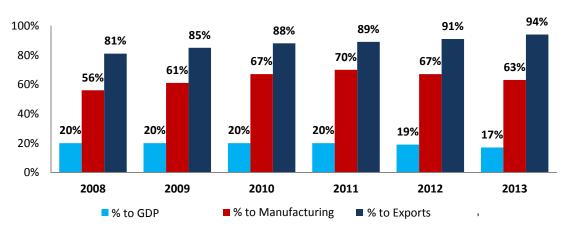

The Issuer plans to make an investment in companies operating in rapidly growing sector of Mongolia, specifically mining, construction, finance and manufacturing sectors.

a) Mining sector

Mining sector has been one of the main sectors of Mongolia and accounts 16.8% of the country's GDP. In 2013, mining sector grew by 1,031.2 billion MNT which is 20.7% higher than the previous year.

In the last 3 years, mining sector on average accounts 18.7% of total GDP, 66.7% of total manufacturing products and 91.3% of total exports.

Chart 20. Mining sector percentage in Mongolian economy

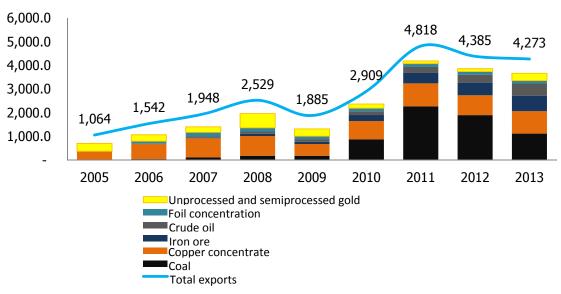

Source: NSO

Mineral resources account most of the export products of Mongolia. In 2013, the country exported in total of 4,273 million USD worth of products, of which mineral resources accounted 94% of it.

Percentage of mineral resources export reduced by 2.2 percent to reach 94% compared to the previous year. Non-manufactured raw materials: coal, copper concentrate, iron ore and concentrate and crude oil account 82% of total minerals export or 74% of total exports.

Chart 21. Main export products, million USD

Source NSO

In 2013, total export value reduced by 111.9 million USD which was due to export price drops at the border, mainly prices of coal concentrate, coal and other main export products.

Statistics of Mongolian export products:

Total foreign trade turnover as of April 2013 reached 2,953 million USD of which exports accounts 1,212.5 million USD and imports account 1,740.8 million USD. Foreign trade balance had a loss of 528.3 million USD as of April 2013, which is 269 million USD or 33.7 percent lower than the previous year.

Total trade turnover decreased by 410.6 million USD or 12.2%, imports by 339.8 million USD or 16.3% and exports by 70.8 million USD or 5.5% compared to the previous year. Mineral products, gem stones, precious metals, jewels and coins accounted 97% of total exports.

Table 25. Main export products (thousand USD)

Products	2009	2010	2011	2012	2013	March 2014
Coal	184,666	882,007	2,273,006	1,901,774	1,122,034	206,460
Coal concentrate	501,846	770,594	968,551	838,780	948,951	349,162
Iron ore	88,770	253,825	441,515	532,509	654,333	81,405
Crude oil	115,633	154,386	253,024	336,053	515,456	157,611
Foil	122,494	134,135	143,188	130,830	119,085	14,601
Unprocessed or semi- processed gold	308,473	178,339	109,778	122,294	309,827	89,843

Source: NSO

The first phase - open pit mining of Oyu Tolgoi project fully started in 2013 and necessary financing of the underground mining development is currently in discussion. As estimated by International Finance Cooperation, when Oyu Tolgoi project is fully implemented, it would account one third of the total GDP of Mongolia. Besides, if other strategic mines such as Tavan Tolgoi get operational, mining sector will have much greater effect on Mongolian social and economic Condition.

b) Construction sector

Building and construction projects reached 1,452.2 billion MNT in 2013, of which local construction companies account 91.3 percent or 1,326.3 billion MNT and foreign construction companies account the remaining 8.7 percent of 125.9 billion MNT.

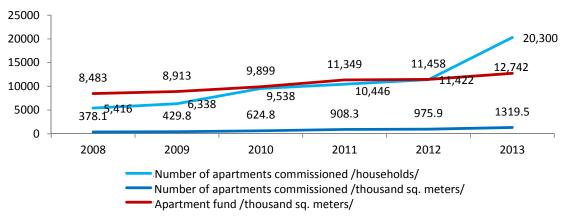

Table 26. Building and construction projects, billion MNT

Executor	2011	2012	2013	YOY change
Total building and construction projects	745.0	811.3	1,452.2	179%
Executed by local construction companies	657.2	748.1	1,326.3	177.30%
Executed by foreign construction companies	87.8	63.2	125.9	199.20%

Source: NSO

Amount of total building and construction projects increased by 640.9 billion MNT or 79.0 percent of which projects executed by local construction companies account 578.2 billion MNT or 77.3 percent.

Chart 22. Number of apartments commissioned

Source: NSO

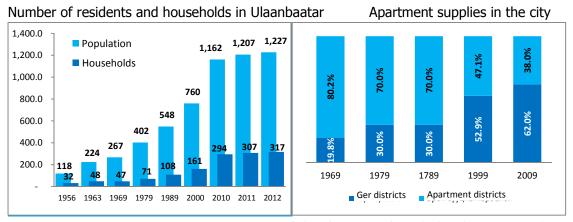

Total amount of loan of commercial banks to construction companies increased by 2 times compared to the previous year to reach 550 billion MNT in 2013. As a result of this, construction companies executed in total of 216 projects and commissioned 20,300 household apartments in 2013.

It hasn't been long since the development of real estate market in Mongolia, whilst the real estate market has been having constant growth over the years. The rapid economic growth of Mongolia stimulates demand of apartments which results ever increasing demand of real estates in the country. As of an end of 2012, statistics show that 45% of total population or 1,287,100 people live in Ulaanbaatar city, a capital of Mongolia.

Since 1990, when the country transitioned from centrally planned economy to market economy, migration to Ulaanbaatar city has been increasing year over year and population concentration has increased a lot. 51.1% of the total residents in Ulaanbaatar have migrated from rural areas. According to the statistics, 78 people per day come in to the city as permanent residents, whilst only 23 people per day go outside the city to rural areas permanently. As of an end of 2012, 122.7 thousand households or 40% of the total population live in apartments whilst 184.1 thousand households or 60% live in ger districts. As the migration into the city expands, both ger district and the city expands in all directions. Growth of ger district is estimated at 6% per year. Over concentration in the capital becomes the main problem source of city image and social problems.

The below figure shows the relationship between city residents and apartment supplies between 1969 and 2009.

Chart 23. Apartment supplies in the city

Source: NSO, General development plan of Ulaanbaatar city of 2030

Construction sector outlook:

Program of "Construction sector promotion and apartment price stabilization" started being implemented from January 2013 in cooperation between Bank of Mongolia and Ministry of Construction and Urban Development. The purpose of this program is to enable interrelation of construction sector supply and demand and stabilize construction material price. The program will be implemented for 3 years and total amount of financing is 800.0 billion MNT.

"General development plan of Ulaanbaatar city until 2020, development direction of 2030" agenda was approved by the Parliament. In the framework of this plan, ger districts are under re-planning stage. As the first phase, apartments will be built in 7 regions and executors have been chosen through tender offers. Thus the supply of apartments is expected to up significantly.

Besides, on April 13th, 2013, the Prime Minister and the President of Bank of Mongolia signed the Memorandum of Understanding to create stable financing system in order to encourage the demand side. Mortgage rate became in a range of 7% and 9 % and 50 square meters limitation was changed to 80 square meters of limitation.

In the framework of improving construction sector infrastructure, construction of "Power station number 5 in Ulaanbaatar" is currently in process. As mentioned above, large scale development projects are to be carried out in construction sector of Mongolia, which implies increased demand of financing in this sector.

c) Financial sector

CM

Brokerage

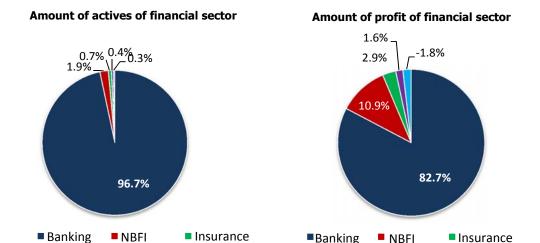

Financial sector is one of the contributors to the country's economic growth. Financial sector accounted approximately 4% of the total GDP of Mongolia between 2007 and 2012 and 5% in 2013.

Chart 25. Size of financial sector, as of June 30rd, 2013

Source: Bank of Mongolia, FRC, MSE

NBFI

Brokerage

The above graph shows that 96.8% of financial sector actives is concentrated in banks, which is the main sole player of the sector. Banking sector accounts 82.7 percent of total profit of the financial sector.

Whilst, non-banking and finance institutions, which account only 1.9% of the total actives of the sector, gets 10.9% of total profit of the sector. Thus, an investment to and cooperation with NBFIs can have high investment returns. Information of non-banking and finance market is provided below.

Non-banking and finance sector

Number of companies took special licenses of non-banking and finance institutions from FRC increased in recent years. As of an end of 2013, in total of 263 entities have taken NBFI licenses. Of which, 19 are foreign invested, 31 operate in provincial areas and 41 have only foreign exchange permissions.

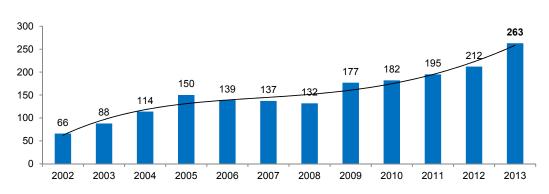

Chart 26. Number of Non-banking and finance institutions, by year

Source: FRC

As of 2013, 83% of NBFIs run loan service, 39.5% operates foreign exchange service, 8.0% conducts investment and financial advisory service, 4.9% runs factoring service, 3.4% runs payment guarantee service and 8.0% conducts trusts services.

Table 27. NBFI comparisons, in thousand MNT

Main indicators	2012	2013	Changes
Total actives	252,053,541.4	381,130,752.7	51.2%
Percentage compared to banking sector	2.1%	1.8%	-0.3%
Total outstanding loan	157,769,345.8	223,711,713.9	41.8%
Percentage	2.2%	2.1%	-0.2%
Amount of total equity	171,296,659.6	234,337,952.6	36.8%
Percentage	17.4%	17.7%	0.3%
Amount of total equity fund	139,194,226.2	183,691,627.8	32.0%
Percentage	45.4%	50.6%	5.2%

Source: Annual report of FRC

Total amount of actives of NBFIs increased by 51.2% in 2013 and equity fund accounts 48.2% of the total actives which implies that NBFIs finance most of their operations through its equity fund.

In 2013, 61.5% of the total assets of NBFI accounted shareholders' capital and long term debt, whilst remaining 38.5% accounted short term capital. Total accumulated profit of NBFIs increased by 72.5% in 2013 which resulted an increase in shareholders' equity by 36.8%, implying profitability rates of NBFIs are relatively high.

Table 28. Profit breakdown of NBFI, by sectors

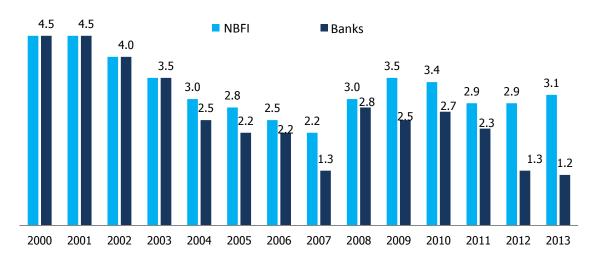

Indicators /thousand MNT/	2012		2013	Change	
indicators /thousand MN1/	Amount	%	Amount	%	(%)
Interest income	45,674,079	65%	66,088,468	62%	45%
Non-interest income	23,344,791	33%	39,317,032	37%	68%
Sub-operational income	1,149,375	2%	1,088,443	1%	-5%
Income from non-operations	314.866	0%	158.143	0%	-50%
Total income	70,483,111	100%	106,652,08 6	100%	51%

Source: FRC

Operational income of NBFIs increased by 51% in 2013 compared to the previous period, of which 62% of the income is interest income and remaining 37% is from non-interest income.

As per an interest income, which is the main revenue source for NBFIs, a monthly interest rate ranges from 9.0% the highest to 0.5% the lowest and an average of 3.13% in 2013. Below is the comparison of interest rates between NBFIs and Banking sector.

Chart 27: Average loan interest rate of NBFIs /monthly/

Source: FRC

Table 29. Sector profitability of NBFIs, in thousand MNT

Indicators	2012	2013	Changes
Total income	70,483,110.80	106,652,086	51%
Total expense	51,903,731.80	76,817,417	48%
Net profit	18,579,379.00	29,834,669	61%

Source: FRC

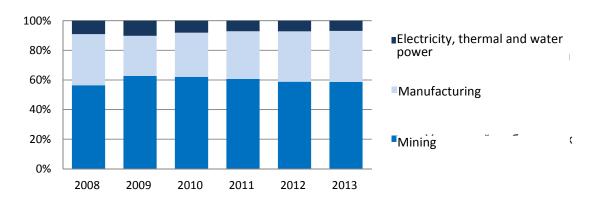

In 2013, net profit of the sector increased by 61% compared to the previous period and net profit to sales ratio was 28%.

In recent years, amount of total loan granted by non-banking and finance institutions to companies and individuals has been growing up by 36% on average of 5 years. An increase in loans outstanding driven by demands implies an interest rate on loan to be maintained and a profitability rate of the sector is expected to increase.

d) Manufacturing sector

In 2013, manufacturing sector had total production output of 7.3 trillion MNT which is 28.4% higher than the previous year. This growth is mainly driven by increased production of mining and manufacturing products, such as copper concentrate, foil, iron ore and crude oil, which has an annual growth of 0.1 to 42.6 percent.

The plan to support manufacturing sector development:

Within a framework of a development plan from 2012 to 2016 approved by the government, the objectives of light manufacturing industry between 2013 and 2016 are defined as follows: In which:

- In total of 9.8 thousand employees work for cashmere sector with an annual production output of 250 billion tugrigs, which was planned to increase to 20 thousand employees with an annual production output of 1 trillion tugrigs by 2016.
- Wool preparation, which is the main raw material of carpet production, is 70%. As of 2012, in total of 3 thousand employees work in this sector with an annual production output of 50 billion tugrigs. In 2016, it is planned to increase the number of employees to 8 thousand and an annual production output to 250 billion tugrigs.

- Currently, in total of 3,500 employees work for skin and leather sector. In a planned year, it is planned to increase the number of employees to 20,000 and an annual production output by 4.4 times or 965.3 billion tugrigs.
- In forestry and wood sector, it is planned to increase current number of employees from 5,000 to 7,000 and an annual production output from 105.5 billion tugrigs to 148.9 billion tugrigs by 2016.

Table 32 Development plan and objectives of light industry between 2013 and 2016

	Indicators	2012	Objectives of 2016
1	Cashmere sector		
	Cashmere production	30%	100%

Source: Ministry of Industry and Agriculture

As mentioned above, the Government is pursuing a policy to develop light industry of Mongolia until 2016 through private-public partnership (PPP) and to substitute imports and promote exports. The government policy has created lots of expectations in the market.

Thus by cooperating with producers and companies in a manufacturing sector, investors can get high yield on their investments through value-added manufacturing companies.

1.2. EXPANDING UNDERWRITING OPERATION:

The following two main directions will be pursued in the framework of expanding underwriting operation.

DIRECTION-1: Support new project submission procedure,

DIRECTION-2: Participate to the primary market trading through firm commitment and

stand by commitment in order to successfully implement the project.

DIRECTION OF AN UNDERWRITING OPERATION-1:

Support new project submissions

In the framework of our special permissions of Underwriting and Investment advisory services, every year "BDSec JSC" accepts number of projects looking for a financing and cooperate with them through our advisory service. For example, between 2010 and 2013, we accepted in total of 139 projects and gave advice and information on raising capital from which we worked as an underwriter on certain projects and raised necessary capital between 2013 and 2014.

In the mid-term, we plan to provide our underwriting service to over 10 large scale projects and raise capital for them through the capital market.

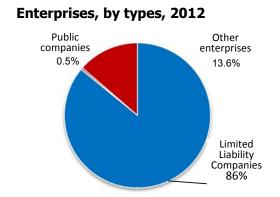

Information on Mongolian enterprises:

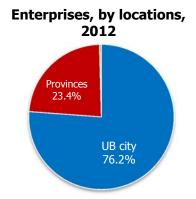

According to the statistics of "List of entities that paid corporate income tax" compiled by General Department of Taxation, there were in total of 19,296 enterprises that paid corporate income tax in 2001, whilst the number of enterprises went up 4 times to 78,741 in 2012.

As stated in "Compiled financial statements of all enterprises paying tax throughout the country between 2007 and 2012", published by Accounting Department of Ministry of Finance in 2012, the following is the breakdown of types of enterprises: Limited liability company (LLC) accounts 86.0% of all enterprises and Joint Stock Companies only account 0.5%.

As shown in the statistics of General Department of Taxation, 76.2% of the all enterprises are registered in Ulaanbaatar city and remaining 23.4% is registered in provincial regions, as of 2012.

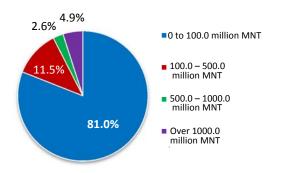

Chart 29. Classifications of enterprises

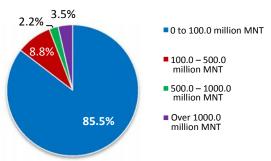

Enterprises, by total assets, 2012

Source: General Department of Taxation

Enterprises are classified in terms of their total assets as follows: 81.0% has up to 100 million MNT of capital, 11.5% is in a range of 100.0 to 500.0 million MNT, 2.6% has 500.0 to 1,000.0 million MNT of capital and remaining 4.9% has over 1,000 million MNT worth of capital.

In terms of sales revenue, 85.5% of total enterprises has up to 100.0 million MNT of sales revenue, 8.8% has in a range of 100.0 to 500.0 million MNT, 2.2% has 500.0 to 1,000.0 million MNT and remaining 3.5% has over 1,000 million MNT of sales revenue. Please refer to the above graph for detailed information.

As of 2010, even though number of enterprises reporting over 1 billion MNT of sales revenue has been decreasing, number of enterprises reporting less than 1 billion MNT went up 5.2 times from 262 in 2001 to 1,364 in 2010.

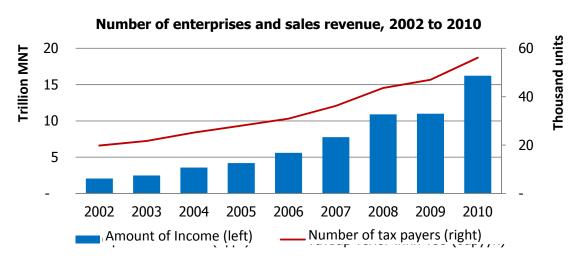

Table 33. Enterprises in terms of sales revenue (MNT)

Sales revenue (mil MNT)	2002	2003	2004	2005	2006	2007	2008	2009	2010

In the below graph, number of enterprises and their sales revenue has been shown. From 2002, both numbers have been increasing. Amount of total sales revenue of enterprises was 2 trillion MNT in 2002 and increased 7.8 times to 16.2 trillion MNT in 2010, in 8 years.

Chart 30. Number of registered enterprises and amount of sales revenue

Source: General Department of Taxation

According to the statistics of enterprises in Mongolia, significant part of total enterprises can be qualified to be listed on the stock exchange, which is implied to be a big market for our Underwriting operation.

DIRECTION OF AN UNDERWRITING OPERATION - 2:

Buy certain proportion of the deal from the primary market in order to successfully implement the project

Based on our years of experience in the capital market and experience of our underwriting operation, we think that "BDSec JSC" participating to the project through firm commitment¹ and standby commitment² would be one of the main factors to successfully raise necessary amount of capital and introduce an IPO to the market.

In 2008, when the company worked as an underwriter for the IPO of "Khukh Gan" JSC, BDSec JSC purchased all the remaining shares after selling to the primary market, which became the first case of standby commitment in Mongolia. We have also underwrote more than half of the IPOs introduced to the capital market and raised necessary financing. Shares of these companies now trade actively on the market.

Advantages of raising capital through Firm commitment¹, Standby commitment²:

As the capital market development is weak and an investor base is not enough, most of the companies raise financing through bank loan, not through securities.

By introducing firm commitment and standby commitment to underwriting companies, companies and entities would be more interested to raise capital from the capital market which would result increasing number of companies issuing their securities and enable high yield, profitable projects to be introduced to the market. Which would further encourage local capital market development and would become the lever to bring the market to the next step.

In the last years, there have been number of cases of unsuccessful capital raising and IPOs as underwriting investment companies don't commit their capital to issuances and work based on their best efforts. Thus, in case underwriting investment companies wholly or partially buy the securities from the primary market, it will be one of the factors of successful capital raising.

 $^{^{1}}$ A type of agreement to purchase all securities directly from the issuer for sale to the public on the secondary market

²A type of agreement that an underwriting investment bank agrees to purchase whatever shares remain after it has sold all the shares it can to the public.

II. USE OF PROCEEDS: IMPLEMENT EMPLOYEE STOCK OWNERSHIP PLAN (ESOP)

HUMAN RESOURCE IMPROVEMENT:

We plan to improve our human resource skillfulness capability through professional and training programs using the proceeds from our additional shares.

In the framework of this plan:

- Train company's management and department managers through local and international management and development trainings and seminars,
- Train other specialists and human capital through training programs,
- Other expenses of human resource

EMPLOYEE STOCK OWNERSHIP PLAN:

It has been decided to grant certain percentage of the additional shares to management, department managers and other main specialists of BDSec JSC.

Upon implementing employee stock ownership plan (ESOP), it would encourage company's specialists and employees to work for the company with high efficiency and for a stable period of time. By implementing this project, company's profitability would increase and human resource capability and efficiency, which is the company's main resource, would increase and employees would develop personally and professionally through this program.

From the additional issuance, in total of 564,050,000 MNT worth of stock was planned to be owned by company's management, department managers and specialists between 2011 and 2016.

Income projection

Sales projection of underwriting service

"BDSec" JSC had total amount of capital raising through both public and private deals in the coming 3 years depending on Mongolian economic and capital market condition approved by the Board of Directors meeting. In 2014, it was planned to raise in total of 90.6 billion MNT worth of capital of which 60% is through equity and 40% is through debt instruments.

Sales revenue of proprietary trading

Company's sales revenue from the proprietary trading through an investment of public and private financing is shown in this section.

As per company's proprietary trading, the company placed 83% of the total current capital as an investment in the last 5 years of which 34% on average is traded per year. Cost of goods sold accounts 76% of the total sales from the proprietary trading and remaining 24% accounts profit. Thus, our projection is based on an assumption to maintain this percentage.

94% of total capital raised through additional shares will be accounted as a working capital and will be spent on investment operation. 30% of the total capital raising through additional shares in 2014 can be used for investment banking purpose and the remaining capital will be kept in commercial banks earning interest, which will be registered as an interest income from sub-operation.

RISK FACTORS AND RISK MANAGEMENT

INVESTORS SHOULD NOTE THAT BY REGISTERING THE ISSUE, THE FINANCIAL REGULATORY COMMISSION IS NOT GIVING A GUARANTEE FOR THE ISSUE. AN INVESTMENT IN EQUITY SHARES INVOLVES HIGH DEGREE OF RISK. INVESTORS SHOULD CAREFULLY CONSIDER ALL THE INFORMATION IN THE PROSPECTUS BEFORE MAKING AN INVESTMENT IN THE EQUITY SHARES.

Risks related to securities market

The history of the Mongolian securities market starts from 1991 with privatization of state-owned companies. The secondary market trading started in 1995. From 2000, the Mongolian government issued government bond and from 2001, companies started issuing corporate bonds and Initial Public Offering (IPO) started from 2005. Since 2005, total of 18 companies got approval from the FRC.

After some very successful IPOs through 2006-2008, investments shrank as investors started quitting in the third quarter of 2008 due to the global financial crisis. During that time, "Monfresh Juice" LLC's IPO failed.

The share prices may fall or the IPO could fail due to many variables, not all of which are directly related to the Company such as general economic and securities market conditions.

Legal risk

Due to legal environment changes in Mongolia, amount of foreign investment in the country reduces and trading activity on stock exchange reduces which might affect negatively to the Issuer's business profitability. Especial, mining companies account significant proportion of Mongolian capital market and political intervention into mining sector is relatively high, which might decrease investors' interest.

The Issuer's operation is regulated through "Securities market law", "Company law", "Entities' special permissions law", "Civil law", "Anti-Money Laundering and Counter-Terrorism Financing Act" and other relevant laws and regulations.

Securities market law, which is the main regulation of professional services in the capital market, was amended in May 24th, 2013 and became fully effective in January 1st, 2014. Due to an amended law, the company adapting its regulations and procedures.

Risks related to the Issuer's operation

"BDSec" JSC conducts brokerage, underwriting and investment advisory service in the capital market.

Risks related to brokerage operation

"BDSec" JSC has been executing most of the trading value on Mongolian Stock Exchange since 2004. Currently, the company has 22% of total local clients and 46% of total foreign clients as its customers and it has in total of 169 thousand customers.

Other risks related to an operation

Intentionally and unintentionally provide confidential information of clients and others, which might result customers to lose confidence;

Lose customers due to new and innovative financial products introduced by them. Upon loosing customers, the company's market position will be weakened which would affect company's business and operational results negatively.

Due to rapid development phase of the capital market, the company doesn't catch up with technological and human resource innovations which would loosen company's position in the market.

The following actions will be taken in order to prevent or mitigate the risks:

- Specialists will be covered by liability insurance,
- Strictly comply with company's internal regulations and relevant laws, make confidentiality agreements with employees,
- Provide basic and professional training programs to specialists
- Improve due diligence
- Develop internal control

Risks related to the company's executive management and controlling share owners

The company's executive management can manage company's day to day activities in the framework of company's charter and an agreement with the Board. In accordance with the Company law and Company's charter, an executive management can make a decision, an agreement and a contract in an amount equal to 25 percent of the previous quarter's total asset.

As for matters beyond the power of an executive directors, the matters shall be presented to the Board and Shareholders' meeting in accordance with the Company law and Company's charter. According to the company's law, controlling share owners can cast a vote equal to the percentage ownership.

Currently, there is no a single shareholder owning more than 33.3% of the company, a controlling stake. As of March 3rd, 2014, below is the list of shareholders owning more than 5%.

Table 40. Shareholders owning more than 5% of the company

No.	Shareholder's name	Number of shares owning	Percentage owning
1	Alexander Zwahr	3,080,500	28%
2	Firebird GM 2 S.A.R.L	1,054,301	9.58%
3	Firebird MF holding 2 S.A.R.L	576,276	5.24%
4	Dayanbilguun.B	2,704,251	24.58%

Source: Detailed securities registration

In accordance with the Company law, the Annual Shareholders' Meeting is held accordingly in which Board of Directors are elected. There are 3 independent members have been appointed as board members. In accordance with a relevant resolution, the Board shall hold its meeting quarterly. The BOD shall make decisions on matters proposed by the Executive director and if necessary, an Extraordinary Shareholders' Meeting shall be held.

Company's financial position and insolvency risk

The Issuer fully complies with all professional requirements and qualifications, which are fully in effect, set by FRC. The issuer established a risk fund which is not less than 3% of the equity capital.

Table 41. Criteria of proper ratios, as of December 31st, 2013

	Requirements	As per E	BDSec JSC	Whether
Indicators	currently in effect	Brokerage and dealer operation	Underwriting operation	meets the criteria or not
Amount of share capital	Brokerage and dealer operation - 50,000,000 MNT Underwriting operation - more than 200,000,000 MNT	·	"BDSec JSC" is 1.1 n MNT	Qualified
Working	Cash and cash equivalents account not less than 50% of	The company has 6,244,515 thousands MNT of current asset		Qualified
capital the share capital Securities trading is not more than 20% of the current asset		4,954,074 thousand MNT worth of working capital with high liquidity.	Qualified	

Risk fund	Shall not be less than 3% of equity capital	33,000 thousand	MNT is deposited	Qualified
	Income	2,114,898.8 thousand MNT	206,832.5 thousand MNT	
Main operational	Expense	311,961 thousand MNT		Qualified
indicators	indicators Profit / Loss (Shall be profitable)		ousand MNT	

In order to increase qualifications and financial capability of capital market participants, Financial Regulatory Commission increased the requirements of special permissions which will became fully in effect starting from July 1st, 2015.

In accordance with the "Rule of special permits to conduct a regulated operation in the capital market", a resolution number 506 as of December 12, 2013 by FRC, an amount of share capital has been defined as follows:

- 1) Investment advisory service 100.0 million MNT,
- 2) Brokerage service 200.0 million MNT,
- 3) Dealer service 300.0 million MNT,
- 4) Underwriting service 1,000.0 million MNT

By increasing share capital through additional share issuance, "BDSec" JSC would be able to fully meet the requirements of special permits.

However, the special permits can be breached in case the company no longer meets the requirements or satisfy proper ratios on half and full year financials through consecutive financial periods. Thus, in order to avoid this risk, the company shall strictly comply with the criteria of proper financial ratios.

No.	TYPE OF RISKS	RISK MANAGEMENT POLICY	MEASURES TO BE TAKEN			
	Foreign factor risk: As the company can't manage risks related to foreign factors, the company will pursue a policy to avoid and prevent these risks in the framework of risk management.

- Register and select candidates for the Board and directly nominated at the shareholder's meeting;
- Evaluate Board members' and executive director's operation;
- Draft agreement terms and conditions to be signed with an executive director
- Evaluate an assessment by the management on authorities' performance except for Board members
- Reject a candidate from the Board member nomination in case the Board member candidate was forfeited his/her rights to work as a Board member for any company for 3 years due to not holding shareholder's meeting

Salary and Compensation committee shall function in the following ways and the BOD shall be presented by the committee report

• Approve salary and compensation policy of Board members, executive director and other authorities and monitor its implementations;

- Set the highest limit on salary and compensation of BOD, executive director and other authorities and make a proposal to provide salary and compensation within stated amount;
- Define the purpose of result driven bonus system currently in implementation and evaluate its result.

Company's shareholders' meeting

The company's BOD approved "Shareholders' Meeting Resolution" on March 12, 2012 to in order to direct relations regarding to hold annual and extraordinary shareholders' meetings, propose meeting agenda, participate to shareholders meeting and exercise voting rights.

The company will announce and hold an annual shareholders' meeting in accordance with the Company's Law to make decisions within shareholders' full rights.

DIVIDEND POLICY

Board of Directors of "BDSec" JSC approved a regulation of "Dividend policy" as of March 12, 2012 which manages relations regarding dividend distribution, dividend amount and other related matters for shareholders.

As stated in the regulation, the company shall expense investors' asset at an adequate amount, maintain and increase an annual dividend amount to shareholders. Matters regarding the dividend distribution shall be approved by the Board of Directors, as stated in the resolution. In case the company decides not to distribute any dividend in a profit-making financial year, the decision shall be presented at an Annual Shareholders' Meeting along with the reason, profit expenditure and estimations. In case it is decided to distribute dividend in a given year, dividend distribution report shall be presented at the next Annual Shareholder's Meeting.

The issuer became a public company by offering its shares to the public in 2006. Since that time, the issuer has distributed dividend as follows.

Table 43. The issuer's dividend distribution report

Period	2006	2007	2009	2010	2012	2013*
Dividend	3	30	5	50	60	11.78

Source: BDSec JSC, MSE

2013 * - According to the BOD's resolution of February 18th, 2014, the company decided to pay 11.78 MNT per share from 2013 profit.

SHAREHOLDERS' RIGHTS

The rights attached to Shares are regulated by the Company Law, the Securities Markets Law, the Company Charter and the draft of the joint stock company.

Shareholders who own Shares by record date are entitled to attend the Shareholders' Meeting announced by eligible person/entity and have voting rights for the Shares held by him or her.

Any dividend as declared by the board is payable on all Shares in proportion to the amount of capital after the preferred shareholders are paid. If the dividend is not paid by the pay date, shareholders have rights to demand charges for overdue.

In the event of liquidation of the Company, shareholders have a right to benefit from sales of all remaining assets in proportion to the amounts of their shares after debts are paid pursuant to Article No. 28 of Company Law.

The shareholders have preemptive rights to purchase additional shares and securities convertible into shares, proposed to be issued by the company. This right shall be provided by the Board pursuant to Article No. 38 of the Company Law.

Any shareholder, who voted against the decisions made on a shareholders' meeting or did not participated in the voting for the following matters, has a right to demand redemption of his or her shares by the Company pursuant to a matter stated in the Company's charter. In which:

- Merger, acquisition, division and restructuring to a private company
- A transaction, or series of related transactions, other than in the ordinary course of business, involving the sale, purchase, disposition (including a pledge) by a company of property or property rights, in which the market value of which exceeds twenty five percent (25%) of the total assets of the company as shown on the company's most recent balance sheet prior to the conclusion of such transaction; concerning major transactions that accounts for more than 25% of total common shares that are outstanding, right to buy common shares, and securities convertible into common shares.

If a shareholder, together with its affiliated persons, is to hold more than seventy-five percent (75%) of a company's common shares, any other common shares holders may demand the Company to redeem its shares. The Board shall determine the price of shares presented for redemption based on an independent valuation agency's estimation. The price can not be lower than the price estimated by the independent valuation agency.

A shareholder who owns more than five percent (5%) of the Company's common shares may introduce additional proposals to the agenda for the shareholders' meeting and may nominate candidates for election to the Board of Directors within 60 days after a financial year ends.

If a shareholder, together with its affiliated persons, acquires more than five percent (5%) of a company's common shares, the shareholder is obligated to notify the company of his/her ownership in written form within 30 days since the trading date. This notification will ensure the shareholder the right to make proposals to the agenda for the shareholders' meeting.

Documents indicated in the Provision No. 66.4 of the Article No. 66 and Provision No. 96.1 and No. 96.2 of the Article No. 96 shall be available to every shareholders. A shareholder who owns more than ten percent (10%) of the Company's common shares can have an auditing company examine financial and economic activities of the Company. The Company is not liable for the obligations of its shareholders. The shareholders shall not be liable for the obligations of the Company and shall only bear risk of loss to the extent of their shares.

Shareholders' property invested into the company and right to property are distinct from their private property and their right to property.

Tax, commission

Trading commission

Commission fee of the trading will be percentage amount an investor agreed with his/her brokerage, which is set at the first account opening date.

Tax on dividend

In an article #30.2 of "Personal income tax law of Mongolia", it states that "incomes stated in article number 13.1.3 and 13.1.4 shall be subject to income taxes starting from January 1st of 2013" and also stated that an article 13.1.3 is "dividend income" and 13.1.4 is "interest income".

Thus, individuals shall pay 10% tax on dividend income starting from January 1st, 2013.

In an article #16.3 of "Corporate income tax law in Mongolia", it is stated that "The sum of each taxable income shall be the amount of income to be taxed", an article 16.3.1 is "dividend income", an article 17.2 states that "The following incomes shall be taxed at an stated amount" and an article 17.2.1 states "an interest income".

Thus local corporates earning an interest income shall pay 10% tax in corporate income tax report.

In accordance with an article 17.2.9 of "Corporate income tax law in Mongolia" foreign registered entities operating in Mongolia shall pay 20% profit tax.

Double taxation agreement:

As of March, 2013, Mongolia signed "Double taxation avoidance agreement, and prevent tax avoidance agreement" with 28 countries.

Regarding the decision of additional share issuance

Pursuant to articles 42 and 87 of the "Company Law" and relevant articles of the company's charter, it was decided to issue 6,000,000 additional shares in order to finance company's mid term plan in accordance with resolution #3 of Annual General Meeting on April 18th, 2014.

417 shareholders as of the registration date of March 3rd, 2014 were entitled to exercise preemptive rights from the additional shares.

Based on articles #39.4, 43 and 56 of the "Company Law", Board of Directors of "BDSec" JSC set the prices of preemptive rights and public offers for the additional shares to be issued in accordance with a meeting resolution of May 9th, 2014.

Number of additional shares to be issued

As stated in the company's mid term plan, in total of 6,000,000 shares will be issued in order to raise additional capital. Thus, the company's number of total shares post-issuance will be 17,000,000, of which 64.7% is the current outstanding shares and remaining 35.29% will be additional share issuance.

Securities offer price

As stated in articles 38.4 and 55.8 of "Company Law", the price of preemptive rights will be offered at 1,931 MNT per share - 10% discount from a weighted average price of the last 6 months prior to January 16th, 2014. Remaining shares from preemptive rights will be offered to the public at market price.

Time line of primary market placement

Market placement of the additional shares will be executed in accordance with Table 43. Securities trading and order submission methods, deadline, extension and shortening shall be decided in accordance with Financial Regulatory Commission, Mongolian Stock Exchange and Board of Directors.

PRIMARY MARKET PLACEMENT

Preemptive rights offering shall be executed on all 6,000,000 shares and remaining shares will be offered to the public.

LEGAL OPINION

In accordance with an article 10.8.1, section 10 of "Securities registration procedure", concluded by an appendix of resolution #6 of Financial Regulatory Commission as of January 15th, 2014, "Legal opinion" was executed by "Anand Advocates" LLP as of May 19th, 2014.

Legal opinion was based on following documents of the Issuer:

- 1. Company's charter, legal entity certification, presentation,
- 2. Employment and other operational resolutions
- 3. Contracts and agreements signed with third parties
- 4. Authority's decision which granted permits regarding company's operation, licenses and special permits,

The legal opinion is in total of 28 pages of which only "Summary" section is included in this prospectus. If you would like to be presented by full version of the legal opinion, please contact the Issuer.

Legal opinion

- The company' (BDSec JSC) is a member of Mongolian Stock Exchange and its shares are publicly traded.
- Company's charter and internal resolutions fully complies with the Company law and the Corporate Governance Code of Mongolia.
- As recommended by the Corporate Governance Code of Mongolia, the followings regulations were approved and fully complied by resolution #03 of Board of Directors as of February 12th, 2012: "Regulation to hold shareholders' meeting of BDSec JSC", "Dividend regulation of BDSec JSC", "Internal control regulation of BDSec JSC", "Regulation of BDSec JSC" and "Regulation of information distribution of BDSec JSC".
- The Board of Directors of the company established Audit committee under the BOD. Corporate Governance Code of Mongolia recommended the Board of Director to establish committees that would effectively recommend on certain aspects of the company's operation.
- The company approved a regulation of information distribution and complies with the regulation, which becomes the basis of increased transparency and investors belief.
- Regulations specific to company's operational uniqueness were approved and fully complied by the company which meets the requirements of Financial Regulatory Commission and Securities market law.
- The company fully complies with the requirements set in the framework of its brokerage, dealer, underwriting and investment advisory services, granted by Financial Regulatory Commission, thus there is no reason to repeal or terminate the special permits by the authorities. According to an article 5.1, section 5 of "Special permits of regulated operations in securities market", which was approved by resolution #506 by Financial Regulatory Commission on December 12th, 2013, which states that "The

- commission shall grant an applicant special permits permanently in case ... requirements are fully met", company's special permits were given permanently.
- A decision of additional share issuance was proposed by the company's shareholders' meeting which fully complies with an article 62.1.3 of Company law.
- Contract and agreement payments the company agreed to are made in relevance of final results.
- Underwriting agreement signed by the Company is part of company's main operation as a result, pursuant to an article 84.1.1. of the Company Law, the transaction will not be considered as Large scale transaction.
- The company put shares under ownership of Dayanbilguun.D, one of the main shareholders of the company, as loan collateral for Golomt Bank. An agreement that Dayanbilguun.D, a shareholder of the company, takes responsibility for the company by this shareholding, is a conflict of interest transaction in accordance with an article 89.1.1 of the Company law. Also, stock purchase agreement of "MI" LLC and Rights transferring agreement are considered as conflict of interest transactions. An article 92 of the Company law was complied when the company executes conflict of interest transactions
- Additional share issuance of 6,000,000 (six million) shares at 2,146 (two thousand one hundred and forty six) tugrigs is large scale transaction in accordance with an article 87.1.2 of Company law. As stated by the counting commission of Annual Shareholders' Meeting, additional share issuance was approved by 100 percent vote. Shareholders' meeting resolution on an additional share issuance was concluded in accordance with an article 88.1 of Company law.
- Contracts and agreements the company signed with third parties within a period of legal opinion support company's main and normal operations and are made fully in compliance with laws and regulations in effect.
- Registration request to Financial Regulatory Commission, primary market placement request, equity prospectus and relevant documents are in compliance with requirements and standards of relevant laws and regulations of Financial Regulatory Commission and Securities registration procedures.
- Information provided in an equity prospectus can be fully validated by state authorities and their references.
- It is to state that Dayanbilguun.D, a citizen of Mongolia, a shareholder and an Executive director of the company, is an executor of the company's monitoring. Dayanbilguun.D has no convictions and is a founder of "BDSec" JSC. He has been one of the executive managements of the company for 18 years.

PARTICIPANTS OF THE EQUITY OFFERING, CONTRACTS AND AGREEMENTS SIGNED WITH THEM

In regards to an additional share issuance, in accordance with Securities market law and relevant laws and resolutions of FRC and MSE, the Issuer had its operational report, financial statements, security issuance resolutions, agreements and reports validated by an independent auditing and valuation services. In which:

1. Audit opinion

BDSec JSC signed an auditing service agreement with BDO Mongolia LLC on November 1st, 2013. In accordance with this agreement, "BDO Mongolia" LLC was obligated to express an audit opinion on financial statements ending December 31st, 2013 inclusive of balance sheet, income statement, cash flow statement, statement of changes in equity and its footnotes. The auditor also expressed an audit opinion on year end financial statements of 2011 and 2012.

The auditing company fulfilled its obligation upon delivering an INDEPENDENT AUDIT REPORT on February 28th, 2014 to the Issuer.

BDO Mongolia LLC was established in December, 2012 in Ulaanbaatar city, Mongolia upon a merging of Itgelt Audit LLC and Amar Incon LLC. Itgelt Audit has been providing accounting, auditing and advisory service since 1997 and is one of the top 5 auditing companies of Mongolia. Amar Incon LLC has been one of the top advisory service companies in Mongolia since 2005.

BDO network was established in 1963 upon a cooperation of United Kingdom, Holland, Germany, the US and Canadian organizations in order to provide better quality service to customers.

2. Valuation

the Issuer sign a contract with "Dalaivan Audit" on February 4th, 2014 in order to conduct revaluation of company's assets (building, transportation means, equipments, furniture, computer and other tangible and intangible assets including its daughter company's assets).

Dalaivan Audit LLC delivered "Fixed asset revaluation report" to the Issuer on February 12th, 2014, fulfilling its obligations stated in the contract.

Dalaivan Audit was established in 1993, being the first auditing company of Mongolia. Since its establishment, the company has been the leading company in the market.

The company conducts auditing, accounting, tax advisory and asset valuation services. Has branch offices in Darkhan-Uul and Orkhon provinces.

In 2007, the company became an independent member to represent Mongolia of Baker Tilly International, which is an auditing, accounting, business advisory service network, having 149 members of 125 countries.

3. Legal opinion

Signed a Legal advisory service agreement with "Anand and Batzaya" LLC (Anand Advocates LLP) on April 22th, 2011. In a framework of this agreement, BDSec JSC had an independent legal opinion issued on the company's charter, legal contracts and agreements signed with others, large sum or conflict of interest transactions.

The legal advisory company provided a Legal opinion to BDSec JSC on May 19th, 2014.

Anand Advocates LLP was established in 2004, which is the legitimate continuation of "Anand and Batzaya" LLC. The partnership is a legal entity of Mongolia which conducts legal advisory and advocacy services.

CONTRACTS AND AGREEMENTS, WHICH ARE WORTH MORE THAN 5% OF ITS SHARE CAPITAL, SIGNED BY THE ISSUER AND ITS IMPLEMENTATIONS

The issuer signed the following agreements worth an amount stated in an article 10.5.7 of Securities market law and fully complied with and fulfilled legal obligations and responsibilities. In which:

Legal agreements currently in effect:

- Signed an underwriting agreement with "HBOil" JSC on December 30th, 2013. In accordance with this agreement, "BDSec" JSC successfully raised 5 million USD worth of convertible loan for "HBOil" JSC on its project in Democratic People's Republic of Korea (DPRK). "BDSec" JSC is currently working on converting the loan into shares.

Contracts and agreements fulfilled:

- Signed a loan agreement /loan agreement number: ZG81115006307/ with Golomt bank on August 2nd, 2013 to borrow 300 million MNT for 3 months with 16.8% annual interest rate. BDSec JSC fully paid the loan within an agreed period.
- Signed a loan agreement /loan agreement number: ZG81115005220/ with Golomt Bank on December 19th, 2011 BDSec JSC agreed to borrow 1.5 billion MNT with an interest rate of 1.6% between December 19th, 2011 and December 29th, 2011. The company fully paid the loan within an agreed period.
- Signed an underwriting agreement with "Beren Mining" JSC on April 21st, 2011. In a framework of this agreement, BDSec JSC was obligated to obtain related permissions on an issuance of 130,560,999 MNT worth of stock which is equal to 30% of the

- company and offer the issuance to the public. As agreed in the contract, "BDSec" JSC obtained necessary permission from FRC and MSE to trade the stocks and offered the stock to the public on best effort basis.
- Signed an underwriting agreement (agreement number: JGKhA/10-11) with "Just Group" LLC on March 14th, 2011 on an issuance of 3,000,000 bonds at a price of 10,000 MNT each. BDSec JSC successfully raised 4.4 billion MNT of capital from the market.
- Signed an underwriting agreement with "Mongol 999 National Consortium" JSC on February 28th, 2011. Signed an underwriting agreement with "Mongol 999 National Consortium" JSC on February 28th, 2011. In accordance with this agreement, BDSec JSC was obligated to offer the company's shares to the public and trade the shares. Yet, due to specific reasons of the contractor, the contract was canceled.
- Signed an Agency agreement with Aurum Resource Mining on April 20th, 2012. In the framework of this agreement, BDSec JSC worked to raise 4,816.0 million MNT worth of capital necessary for "Jump-Gold" LLC through private placement. Yet, due to uncertainties related to new investment law approved by the parliament, new trading system introduction to the stock exchange which dried up trading volume on the capital market and economic and market slowdowns, agreement signed with "Jump-Gold" LLC was canceled on May 27th, 2013.

INDEPENDENT AUDITOR'S OPINION

To the shareholders of BDSec JSC,

We have audited the accompanying financial statements of "BDSec" JSC which was stated in pages 5 to 39 as of December 31, 2013, which comprises of the statement of financial positions, income statement, statement of changes in equity and cash flow statement as of a given date and other explanatory notes to the financial statements and a summary of significant accounting policies.

Management's responsibility for the financial statements

Management is responsible for the preparation of these financial statements in accordance with the International Financial Reporting Standards and for such proposal and investigation of an internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, adoption of adequate accounting policies and implementation of reasonable accounting estimates.

Auditor's responsibility

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Conclusion

In our opinion, the financial statements as of 31 December 2013 present fairly, in all material respects, its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRS")

Usage of the statements

These statements have been published by "BDSec" JSC for its shareholders in accordance with an article 94 of the "Company Law" of Mongolia. We will not be responsible for the content of this statements in front of third party.
