The accompanying notes are an integral part of these condensed interim consolidated financial statements.

Notes to Condensed Interim Consolidated Financial Statements (Canadian dollars) (Unaudited)

For the three and six months ended June 30, 2018 and 2017

1. Nature of operations

Erdene Resource Development Corporation (the "Corporation") is a corporation domiciled in Canada. The address of the Corporation's registered office is 1300-1969 Upper Water Street, Halifax, Nova Scotia, B3J 2V1. The condensed interim consolidated financial statements of the Corporation as at and for the six months ended June 30, 2018 and 2017 comprise the Corporation and its subsidiaries. The principal business of the Corporation is the exploration and development of mineral deposits. The Corporation is primarily focused on the exploration of precious and base metal deposits in Mongolia.

2. Going concern

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes the Corporation will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. However, in making its assessment, management is aware of material uncertainties related to events or conditions that cast significant doubt upon the Corporation's ability to continue as a going concern, as described in the following paragraphs.

The Corporation is in the exploration stage and is subject to the risks and challenges similar to other companies in a comparable stage of exploration. These risks include, but are not limited to, dependence on key individuals, successful exploration results and the ability to secure adequate financing to meet the minimum capital required to successfully advance the projects and continue as a going concern.

The Corporation experienced significant losses and negative cash flows from operations for the interim period ended June 30, 2018 and for the years ended December 31, 2017 and 2016 and had a deficit of \$100,157,659 at June 30, 2018. The Corporation had working capital of \$4,888,795 at June 30, 2018, compared to \$3,229,150 at December 31, 2017, representing a \$1,659,645 increase. Management estimates current working capital is sufficient to fund the Corporation's planned expenditures until the first quarter of 2019; which could be extended with the deferral of planned expenditures if deemed necessary. The ability of the Corporation to continue as a going concern, realize its assets and discharge its liabilities in the normal course of business and continue with, or expand upon its exploration programs is contingent upon securing equity financing, entering joint venture agreements or monetizing assets. The timing and availability of additional financing will be determined largely by market conditions and the results of the Corporation's ongoing exploration programs. There is no certainty that the Corporation will be able to raise funds as they are required in the future.

These condensed interim consolidated financial statements do not reflect the adjustments that would be necessary if the going concern assumption were not appropriate. If the going concern basis was not appropriate, then adjustments would be necessary to the carrying amounts of the assets, the reported revenues and expenses, and the statement of financial position classifications used.

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting ("IAS 34").

These financial statements were prepared using the same accounting policies and methods of computation and are subject to the same use of estimates and judgments, as the Corporations consolidated financial statements for the year ended December 31, 2017. They do not include all the disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the Corporation's 2017 annual consolidated financial statements which have been prepared in accordance with IFRS.

The condensed interim consolidated financial statements were authorized for issue by the Board of Directors on August 10, 2018.

Tsenkher Nomin

The license is located in Bayankhongor province in Mongolia. The 4,669 hectare Tsenkher Nomin license includes the Altan Nar gold, silver, lead, zinc prospect and has an annual renewal in December. The exploration license is in its ninth year of a maximum 12-year term and can be converted to a mining license at any time prior to the end of the twelfth year by meeting the requirements prescribed under the Minerals Law of Mongolia. Ulaan & Other

On August 30, 2017 the Corporation acquired a 51% interest in the Ulaan exploration license, situated immediately adjacent to its high-grade Bayan Khundii gold project, with the option to acquire up to 100%. The Ulaan exploration license covers an area of approximately 1,780 hectares. The exploration license is in its third year of a maximum 12-year term and can be converted to a mining license at any time prior to the end of the twelfth year by meeting the requirements prescribed under the Minerals Law of Mongolia. Erdene acquired 51% of the outstanding shares of Leader Exploration LLC, a private Mongolian company that currently owns the property, for US\$750,000. Provided Erdene spends a minimum of US\$600,000 on work expenditures on the property over three years, it has the right to acquire the remaining 49% of the shares of Leader or, at Erdene's option, a portion of the property, for the then fair market value of the property or the portion to be acquired. Erdene may extend the option beyond three years by spending a minimum of US\$100,000 per annum on work expenditures.

Teck Alliance

In April 2013, the Corporation entered into an agreement with Teck Resources Limited ("Teck"), to fund and explore the Corporation's mineral tenements in the Trans Altai region of southwest Mongolia. Following the March 2017 acquisition of 543,478 shares for \$500,000, Teck has invested a total of \$3.0 million to December 31, 2017, thus fulfilling its investment commitment; and owned 7.9% of the outstanding shares of the Corporation at June 30, 2018 (2017 – 8.7%). Credit Risk:

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Carrying Amount			
	June 30,		ecember 31,	
	 2018		2017	
Cash	\$ 5,146,759	\$	3,225,202	
Receivables	155,343		148,069	
	\$ 5,302,102	\$	3,373,271

At June 30, 2018, \$29,711 or approximately 1% of the balance of cash was held in banks outside Canada (December 31, 2017 - \$113,555 or 4%).

For the three and six months ended June 30, 2018 and 2017

8. Financial instruments (continued)

Liquidity Risk:

Liquidity risk is the risk that the Corporation will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Corporation's approach to managing liquidity is to ensure, to the extent possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. As of June 30, 2018, the Corporation had a cash balance of \$5,146,759 (December 31, 2017 - \$3,225,202) to settle current liabilities of \$507,973 (December 31, 2017 - \$191,600).

Market Risk:

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

a) Interest rate risk

As of June 30, 2018, the Corporation has no interest-bearing debt and is not exposed to any significant interest rate risk.

b) Foreign currency risk

The Corporation operates in Mongolia, giving rise to foreign currency risk. To limit the Corporation's exposure to this risk, cash balances are primarily held with high quality financial institutions in Canada. Based on the timing of the Corporation's exploration programs, foreign currencies may be purchased in advance of expenditures to lock in favourable rates in line with the Corporation's budgets, otherwise the Corporation does not use any form of hedging against fluctuations in foreign exchange.

The Corporation's exposure to US dollar currency risk was as follows:

	June 30, 2018	December 31, 2017		
Cash	\$ 1,105,694	\$	212,116	
Trade and other receivables	\$ -	\$	7,424	
Trade and other payables	(35,543)		(13,767)	
	\$ 1,070,151	\$	205,773	

Sensitivity to a plus or minus 10% change in the US dollar exchange rate would affect net loss and comprehensive loss and deficit by approximately \$107,000 (December 31, 2017 - \$20,600).

Notes to Condensed Interim Consolidated Financial Statements (Canadian dollars) (Unaudited)

For the three and six months ended June 30, 2018 and 2017

8. Financial instruments (continued)

The Corporation's exposure to Mongolian Tugrik currency risk was as follows:

	June 30, 2018			ember 31, 2017
Cash	\$	9,400	\$	25,328
Trade and other receivables		13,424		7,158
Trade and other payables		(306,621)		(71,012)
	\$	(283,797)	\$	(38,526)

Sensitivity to a plus or minus 10% change in the Mongolian Tugrik would affect net loss and comprehensive loss and deficit by approximately \$28,400 (December 31, 2017 - \$3,900).

b) Price risk

The Corporation's financial instruments are not exposed to any direct price risk other than that associated with commodities and how fluctuations impact companies in the mineral exploration and mining industries as the Corporation has no significant revenues.

Fair Value:

The fair value hierarchy of assets and liabilities measured at fair value on the consolidated statements of financial position or disclosed in the notes to the financial statements is as follows:

	June 30,		December 31,			
	2018 Level 1		2018			2017
